Lyceum Scholars Program, Snow Institute for the Study of Capitalism

The Snow Institute for the Study of Capitalism is America's premier university-based teaching and research center dedicated to exploring the moral foundations of capitalism. The Snow Institute is also the home of the Lyceum Scholars Program, which is recognized as one of America's most prestigious academic programs, with an acceptance rate of just over one percent in 2023. The Lyceum Program uses a great books approach, dedicated to the study of the history of liberty, capitalism, the American Founding, and principles of a moral character.

As I see it, a classical, liberal arts education is an education in things worth knowing, and, without it, human life is somewhat incomplete, undeveloped, and unfulfilled.
